## PROFESSIONAL EXPERIENCE

---

### ANGELONE

Bangalore(Remote)

#### Software Development Engineer 2(Frontend)

May 2024 - Present

- Enhanced Core **Web Vitals** for MTF and Stock Pledge modules, elevating FCP, LCP, and CRP by **41%** reducing document API size through optimized code and image compression techniques.
- Conceptualized and constructed a trading analytics platform utilized by **190K+ monthly active users**, platform enabled analysis of F&O, intraday, and delivery trades via interactive charts and advanced filters.
- Delivered interactive **real-time chat** features in live trading with a custom-built rich text editor with emoji support, pinned messages, and live polling — enhancing user communication and engagement.
- Launched a customizable survey platform with conditional flows and progress tracking, used by **220K+** users monthly across multi-page, internally configured forms.
- Led Svelte 5 migration for **10+ modules**, resolving compatibility issues, conducting load testing, and successfully deploying to production.

### INNOVACER ANALYTICS PVT. LTD.

Noida, India

#### Software Development Engineer 2(Frontend)

Dec 2021 - May 2024

- Led the development of a premium campaign tool, Patient Relations Management (PRM), for **2 clients** with the help of two engineers by using React.js, Redux, and Node.js to successfully deliver the project end-to-end within **6 months**.
- Built Smart Assist using OpenAI APIs, allowing real-time AI-powered content rewrites and tone adjustment in communication workflows — increasing user engagement by **18%**.
- Mentored **2 new software developers**, offering comprehensive mentoring through code walkthroughs, front-end concepts, code reviews, task organization, task delivery, and unit testing.
- Modernized **4 web apps** by migrating to a micro frontend architecture, improving scalability and monitoring performance using Grafana, ArgoCD, and JMeter.
- Established a shared component library (**Commons repo**) with **20+** reusable components and utilities, reducing duplicate effort and standardizing frontend development across teams..

### INTERNSHALA

Gurugram, India

#### Software Developer

Sep 2020 - Nov 2021

- Developed the Job Oriented Specialization(JOS) product, contributing **5%** monthly revenue.
- Enhanced UI/UX and increased enrollment rates by **22.56%** by migrating enrollment platform pages from AngularJS to React JS.
- Boosted social shares of training completion certificates from **30.55%** to **45.62%**.
- Liaised between two teams to deliver the project ahead of schedule.
